

FaxFX Fax2Email Corporate Solution

Fax2Email Corporate delivers all the benefits of sending and receiving faxes without the cost or hassle associated with paper and conventional fax machines or fax servers and for no capital outlay.

Our hosted and managed fax to email solution via FaxPl@form offers significant advantages over installing fax servers on your network.

- No Hardware or Software Installation
- No Maintenance
- No Additional Staff Requirements
- No Upgrade Costs
- Zero Capital Cost
- Zero Cash Flow Stress
- Zero Expansion Costs

Instant implementation insures an immediate return on investment through dramatically increased productivity.

Easy to use

- Send or receive faxes direct to your email inbox
- Faxes arrive as PDF, TIFF, PS attachments
- Setup specific numbers for departments or individuals
- Electronic archiving for security and retrieval
- Web interface and reporting suite puts you in control

Save time

- Faxes can be shared in seconds
- No more waiting for hand delivery to your desk
- Send and receive faxes anywhere you have internet access
- No more queuing at the fax machine
- No engaged tones for your clients faxing in

Save money

- Reduce or eliminate consumable costs like paper and toner
- Stop paying out for people to staff a fax department or to hand-carry to intended recipients
- Cut down costs on fax hardware or even get rid of them all together
- No capital outlay with FaxFX Fax2Email solution

Safe and secure

- No one but the intended recipient gets to see the fax
